TO ADVERTISERS. The Free Press Recognized by Geo. P. Rowell & Co., as Ahead as an Advertising Medium.

The well known advertising agency of Geo.P.Rowell & Co., of New York City, have issued an annual Newspaper Directory for thirty years or more, and these publications have been generally recognized as authority as to the matter of newspaper circulation. In the regular issues of the Directory they have included all the newspapers published in the United States and Canada. Quite recently, however, they have issued a condensed list. It gives only the best newspapers as advertising mediums, and hence is practically better, because more convenient, than their larger Directory. Four-fifths of the newspapers of the United States are practically "counted out" by intelligent advertisers, who only want to know the best. Hence the value of the work under notice.

The publishers in the preface well say:
"It sifts the wheat from the chaff. It directs the attention of an advertiser toward papers which he should and ought to use, and tends to intercept a portion of that pa-tronage which goes to publications which cost greatly in excess of any power to bene-fit which they possess. It takes the general ground, that the best is the cheapest." We need scarcely say that on this plan, the FREE PRESS is given by this book (see page 158) as the advertising medium of Sau Marcos and Hays county, it being the only one on the list. We respectfully invite the attention of advertisers, both at home and

H. ZEILIN & CO., Philadelphia, Pa. I was afflicted for several years with abordered liver, which resulted in a severe stack of jsundice. I had as good medical attendance as our section affords, who failed utterly to restore me to the enjoyment of my former good health. I then tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose; where upon I was induced to try Simmons Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health.
